DETAILED ACTION

Response to Remarks and Amendment

Applicant's arguments, see statement of remarks, filed 08/15/2005, with respect to Office action mailed 04/13/2005 have been fully considered and are persuasive. The rejection of claims 1-4 has been withdrawn in view of the amendments to claims 1-4.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 1 and 4 were amended by adding limitations that include "at least partially surrounding the object", "lens positioned at least one of within and adjacent to first aperture having surface area substantially proportional to first aperture, wherein portion of lens provides magnified view" and "for illumination of the object". The primary reference against claim 1, Laihanen, does not teach or disclose the above cited limitations. The primary reference against claims 2- 4, Beesley, does not teach or disclose the above cited limitations. Independent claims 2 and 3 were amended by adding limitations that include "at least one aperture, lens having magnification portion positioned at least one of within and adjacent to one aperture and having surface area substantially proportional to aperture". Again, the primary reference against claims 2- 4, Beesley, does not teach or disclose the above cited limitations.

Claims 5-20 depend from claims 1 or 2 and are allowable for the same reasons.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
